The mission of The American-Scottish Foundation®, an international not-for-profit organization, is to establish links and strengthen ties between Scotland and the United States, through the pursuit of contemporary social, cultural, educational, and business activities. The mission remains as relevant today as when ASF was founded in 1956 by Lord Malcolm Douglas-Hamilton - to champion the extraordinary relationship between the peoples of Scotland and the United States - a bridge between the two great countries - seeking to strengthen and support the future of the Scottish American diaspora, and its legacy.

NEW YORK LANDMARKS 50

THE SCOTS WHO BUILT NEW YORK'S LANDMARKS is in the early stages of development, and will chart the impact of Design, Development and Building of New York by leading Scottish architects & philanthropists. The exhibit is in honor of the 50th Anniversary of Landmarks Preservation Law in 2015.

JOHN FOREMAN - Writer & Historian, John has been a partisan of historic preservation for almost 50 years. Returning from college to a beleaguered Manhattan in the late 1960s, he immediately became a "brownstone pioneer," seeing beauty and architectural value in Manhattan's dilapidated Upper West Side. Throughout a parallel career as a real estate broker for the Halstead Property Company, John has written, spoken and blogged extensively on architectural preservation. Louis Auchincloss described his 1991 book, "The Vanderbilts and the Gilded Age" as "likely to become the definitive book on the Vanderbilts." Last year, the Victorian Society of New York gave John's blog, "Big Old Houses," their award for "Best New Media." Two years ago, David Patrick Columbia's New York Social Diary picked up the blog and made John a regular weekly contributor. "Big Old Houses" now appears every Tuesday at the head of the Diary's "Today's Features," sharing a monthly audience of 700,000 visitors.

JOHN KINNEAR - Principal of John Kinnear Architects and President of the American Friends of the Georgian Group, has an architectural practice based in Manhattan, which undertakes projects throughout the United States. The firm is noted for its historical preservation as well as new structures incorporating traditional design styles. Recent projects include the restoration of the Ruth Mansion in Delaware, 26 Commerce Street in Greenwich Village, and The Queen Elizabeth II September 11th Garden in Hanover Square for which he was the Project Architect.
